Subject: Friday Travel to Dimock-A Proposal

Hi Ron,

During our meeting with the OSCs/CICs, we discussed a few logistical concerns that we also ran through Walt and we wanted to share them with you to raise with Shawn--if you have the opportunity. Please know that we are supportive of whatever you need and we'll do what we need to do. I bring these issues to you as points to consider in influencing the decision-making process upstairs if you can.

- If we go out Friday, we'll be down to 3 teams. Alex has a wedding Friday night.
- It's a 6 hour round trip drive to Dimock (folks are not planning to spend the night on Friday). That doesn't give us a big window of work time in the field.
- It's the Friday before Christmas Eve and it's reasonable to expect that residents may not appreciate us showing up/being in their homes.

Recommendation:

- Postpone the field work until next week
- Use Thursday/Friday to send the residents the e-mail message from Trish and to make appointments to fill out the surveys next week
